

1. Create a separate column to show production per Area for every crop in each State?
2. Which state has maximum and minimum Production per Area ?
3. Extract the maximum production of Kharif and Rabi crops in each State ?
4. Extract the minimum production of Kharif and Rabi crops in each State ?
5. Find the average crop production of
  - 1.1. Andaman
  - 1.2. Nicobar
  - 1.3. Anantapur
  - 1.4. UDALGURI
6. Find the year in which crop production is highest in Andaman and Nicobar Islands.
7. Extract the data for maximum and minimum Production per Area in the region States
  - 1.1. Andaman and Nicobar group of Islands
  - 1.2. Bihar
  - 1.3. Rajasthan
8. Find the year in which the crop production is high and low?
9. Extract name of the crop whose production is highest and lowest all over in india?
10. Which crop production is high and low in Rabi and Kharif Seasons?
11. Change the Alias name of the Production per Area to Rate of Production of Crops ?
12. Extract the data of Rice, Wheat, Potato, Sugarcane, Coconut ?
13. In which year the production of Rice and Wheat is high and low?
14. Extract the data for Potato production in which the Production rate is in Ascending Order ?
15. In which state the production of Black Pepper found and order the production rate in Descending order ?
16. Find the state which has the maximum Area for Cultivation in India ?
17. Find the state which has the minimum Area for Cultivation in India ?
18. Create an average table of Rice, Wheat, Potato, Sugarcane, Coconut and order this data in Descending order by Crop Production ?
19. From question number 18 find the maximum and minimum production of these crops?
20. Extract the data of Crops based on zones
  - 1.1 East Zone
  - 1.2 South Zone
  - 1.3 West Zone
  - 1.4 North Zone
21. Find the total zone wise production of crops.
22. Draw the graph of maximum production of Crops in the South Zone.
23. Find the maximum and minimum production of Crops state wise in every Zone.
24. Find the year in which the production of Rice is maximum and minimum.
25. Find the average production of Wheat in 2009 ?
26. Arrange the crops on the basis of Production rate in descending order.
27. In which year the production of
  - 1.1 Banana is high
  - 1.2 Potato is low
  - 1.3 Masoor is less as compared to Rice
28. Which state has maximum and minimum cultivation area?
29. Which crop is mostly cultivated in Assam and Nicobar ?
30. In which year the production of Sugarcane is high and low ?
